

Office of
STATE ENGINEER

Salt Lake City, Utah Aug. 9,

Mr. Emery County Canal & Reservoir Co.,
Emery, Utah.

SEP 17 1928
State Engineer's Office

Dear Sir:

Under authority conferred by Chapter 100, Session Laws of 1925, the distribution of water from Muddy Creek will be under the supervision of the State Engineer, acting through Mr. Wallace Case as water commissioner.

Said Section provides that:

"The salary and expenses of such commissioner or deputy commissioner or commissioner shall be borne pro rata by the users of water from such river system or water source, upon a schedule to be fixed by the State Engineer, and such pro rata share shall be paid by each water user to the State Engineer in advance on or before the 1st day of July of each year, and upon failure so to do, the State Engineer may forbid the use of water by any such delinquent while such default continues, or may bring an action in the court for such unpaid expense and salary, and such court may issue an order to show cause upon any delinquent user or users why a judgment for said sum should not be entered."

Your pro rata share under the above provision for the coming irrigation season as scheduled is \$ 150.00. This sum must be deposited with the State Engineer on or before in order that funds may be available for meeting the cost of distribution for the coming season. You will note particularly that the above quoted section gives the State Engineer power to forbid the use of water to anyone who is delinquent while said default continues.

Yours very truly,

GEO. M. BACON, State Engineer

By L. E.

Please return this notice with remittance.
